

Hi,

Name a better comfort food than homestyle Italian lasagna... that's right, you can't!

In celebration of **National Lasagna Day** on July 29, this month, [Rao's Homemade](#) is teaming up with viral grassroots community impact movement Lasagna Love and Pastene to bring its simple, slow-cooked sauce to a record number (4,543) of lasagnas donations delivered across the country. The catch? All of these meal deliveries will be made in just one week. Mama mia, that's a whole lotta lasagna!

Lasagna Love's mission to combat food insecurity in the U.S. is supported by cases of Rao's Homemade sauces, boxes of Pastene noodles and an army of 20,000+ volunteer "Lasagna Chefs" (LCs). The organization has delivered more than 95,000 meals and has positively impacted over 400,000 lives nationwide. As the National Sauce Sponsor, Rao's Homemade serves up batches of sauce that help a mass meal delivery maintain its special home-cooked touch.

From one mother to over 4,500 homes coast-to-coast, lasagnas will be delivered to ensure that families can get dinner on the table and celebrate National Lasagna Day right. Please see more information in the press release [here](#) and let me know if you have any questions.

Thank you,
Chelsea
